Christopher Goodbaudy

Vancouver, WA · (503) 740-3827 · chrisg@thoughtsparkai.com · linkedin.com/in/chris-goodbaudy

SUMMARY

Implementation and solutions leader with 20+ years across training, enablement, and software delivery — the last decade specializing in implementing, demonstrating, and training teams on AI-enhanced clinical documentation software. Now a founder building and shipping production AI SaaS end to end, from architecture and full-stack development through LLM integration and launch. Equally comfortable running technical demos in front of customers and wiring up the systems behind them in code.

SKILLS

AI & Solutions: AI-enhanced clinical documentation · solution implementation · technical sales demonstration & pre-sales · customer training & enablement · requirements gathering · onboarding & change management · LLM application design

Engineering: Next.js · TypeScript · React · Node.js · Supabase / PostgreSQL · Clerk (auth) · Stripe (billing) · Claude / LLM API integration · Resend & Twilio · Tailwind CSS · Vercel

EXPERIENCE

Thought Spark AI — Founder & AI Consultant

Mar 2026 – Present

Vancouver, WA

- Founded an AI consulting practice helping small and mid-sized businesses adopt practical, AI-enabled tools and workflows.
- Designed and shipped 7+ production SaaS products solo — full-stack architecture, authentication, billing, and LLM-powered features — on a modern Next.js / TypeScript / Supabase stack.
- Integrate large language models (Claude API) into real product workflows, including AI-generated client communications and automated content.
- Deliver client-facing AI audits, enablement, and implementation guidance grounded in hands-on engineering experience.

EnSoftek — Implementation Manager, Lead Sales Demonstrator & Trainer

Sep 2015 – Apr 2026

Focus: AI-enhanced clinical documentation

- Led 30+ end-to-end implementations of a behavioral health EHR platform, guiding clinical and administrative teams from kickoff through go-live and adoption.
- Served as lead sales demonstrator, delivering 100+ product demonstrations to prospective customers and translating clinical workflows into compelling solution narratives.
- Trained hundreds of clinical staff, driving adoption of AI-enhanced clinical documentation features and reducing documentation burden for providers.
- Acted as the bridge between customers, sales, and product — gathering requirements, managing rollout, and ensuring successful onboarding across diverse behavioral health organizations.

5th Gear Enterprises — Director of Training & Development

Sep 2003 – May 2015

- Directed the company's training and development function, building and leading a team of up to 5 and owning curricula and enablement programs for staff.
- Designed and delivered training across roles, establishing onboarding and ongoing development standards.
- Led the training organization for over a decade, growing programs alongside the business.

SELECTED PROJECTS

- **The Flight Steward** — Live, offline-first PWA for airline cabin crew to capture drink and meal/snack orders by seat; fully functional with zero connectivity during boarding, taxi, and flight. Unit-tested, on-device storage, no backend. *Next.js 16 · TypeScript · Dexie / IndexedDB · PWA · Tailwind · Vitest*
  theflightsteward.com
- **Stack Ritual** — Live supplement-tracking SaaS with subscription billing, SMS reminders, and a referral program. *Next.js · TypeScript · Supabase · Clerk · Stripe · Twilio · Vercel*
- **ListingStack** — Real estate CRM SaaS (contacts, opportunities, listings, deals, tasks) with AI-generated drip email campaigns and reporting. *Next.js · TypeScript · Supabase · Clerk · Resend · Claude API*
- **Money and Macros** — Budgeting and nutrition tracking PWA with Stripe payments and recurring-transaction intelligence. *Next.js · TypeScript · Supabase · Stripe*
- **Kinship** — Multi-tenant SaaS EHR with organization-level isolation and tiered subscription features. *Next.js · TypeScript · Supabase · Clerk · Stripe*
- **DrCloud Neo** — Behavioral health EHR with an AI-enhanced clinical documentation engine. *Next.js · TypeScript · Supabase*
- **Thought Spark AI Admin Portal** — Internal CRM covering leads, customers, revenue, invoices, organizations, and user management. *Next.js · TypeScript · Supabase · Clerk*
